ZakariaeJaafari

Profile

Java / Spring software engineer with 4+ years of production delivery across public-sector and IT-services teams. At Agence de Développement du Digital (ADD), I design Java 21 / Spring Boot microservices, Angular / React interfaces and Kafka / Redis flows, with Keycloak IAM, JUnit / Mockito tests and Docker / Kubernetes delivery. I turn stakeholder requirements into Scrum sprints and mentor junior developers. Public projects extend that backend base into inspectable data engineering: dbt / DuckDB (109 million yellow trips), Bruin / MotherDuck ELT and Kestra orchestration. INSEA graduate in Data & Software Engineering; Arabic, French and English. Based in Rabat; open to French-speaking Europe.

Professional experience

Software Engineer (Freelance), Agence de Développement du Digital (ADD), Rabat 09/2024 – present

- Design Java 21 / Spring Boot services and Angular / React interfaces for public-sector digital services.
- Cross-service events with Kafka, Redis caching; deploy and orchestrate with Docker / Kubernetes.
- Keycloak IAM; JUnit, Mockito and integration tests before release.
- Gather requirements with client stakeholders and turn them into sprint-ready work.
- Mentor junior developers and lead the team on sprint goals in Scrum.

Tech stack: Java 21, Spring Boot, Spring Data JPA, Hibernate, Angular, React, Kafka, Redis, Keycloak, Docker, Kubernetes, GitLab, CI/CD, JUnit, Mockito, Mendix.

Software Engineer, Inetum Morocco, Rabat 08/2022 – 08/2024

- Spring Boot microservices and REST APIs for production applications, in Scrum.
- Angular interfaces with cross-functional teams; JUnit and Mockito tests.
- Docker containers; CI on Jenkins and GitLab. Mendix when rapid delivery was the constraint.

Tech stack: Java, Spring Boot, Angular, Docker, Jenkins, GitLab, Jira, Scrum, JUnit, Mockito, Mendix.

Data Science Intern (Final-year internship), Beneva, Québec, Canada 05/2022 – 08/2022

- Customer clustering and dashboards; lifetime value and survival curves.
- Analyses proposed to support company decisions (Python, scikit-learn, PyTorch, SQL, Azure).

Tech stack: Python, scikit-learn, PyTorch, SQL, Azure, GitLab, Scrum.

Selected projects

ChantiePro 16 Spring Boot 3.3 services on Java 21, 6 shared libraries, 31 Flyway migrations, Kafka, Angular 18.

<https://github.com/ZakariaeJaafari/chantiepro>

NYC Taxi dbt Dimensional models with dbt and DuckDB: 109,047,518 yellow trips at source, 8,298,395 sampled facts, and 34 tests executed in CI.

<https://github.com/ZakariaeJaafari/data-analytics>

NYC Taxi ELT on DuckDB and MotherDuck: batched PyArrow ingestion, deduplication, quality checks, 6,405,008 Bruin cloud rows, and SQL tests in CI.

Education

Graduate exchange programme — Artificial Intelligence, *Université Laval*, Québec, Canada 08/2021 – 05/2022

Engineering Degree in Data and Software Engineering, *INSEA*, Rabat 09/2019 – 05/2022

Certifications

01/2024 **Rapid Developer Certificate** — Mendix, ID 69110

Technical skills

Backend & web Java 21, Spring Boot, Spring Data JPA, Hibernate, Spring Security, REST APIs, microservices, Angular, React, TypeScript

Data Python, SQL, PostgreSQL, dbt, DuckDB, MotherDuck, Bruin, PyArrow, Parquet, pandas, Kestra, Airflow, Spark, Flink, dlt, BigQuery, Terraform, GCP, Kafka, Redis, Flyway

Delivery & Docker, Kubernetes, GitLab, Jenkins, CI/CD, JUnit, Mockito, Keycloak, Mendix quality

Data science scikit-learn, PyTorch
