Profile

Software engineer with 4+ years on Java 21 and Spring Boot, in the public sector and IT services. At ADD: REST and event-driven microservices (Kafka, Redis), Angular and React, Keycloak IAM, Docker and Kubernetes. Data-engineering specialisation shown through tested pipelines (dbt, DuckDB, Bruin, MotherDuck, Kestra) — Data & Software Engineering degree (INSEA), AI exchange at Université Laval, data-science internship at Beneva. Works in French, English and Arabic.

Professional experience

- Since Sept. 2024 **Software Engineer (Freelance)**, *Agence de Développement du Digital (ADD)*, Rabat
Morocco's national digital development agency.
- Design and build Java 21 / Spring Boot services and Angular / React interfaces for public-sector digital services.
 - Kafka for cross-service events, Redis for caching; deploy and orchestrate with Docker and Kubernetes.
 - Authentication and IAM with Keycloak; JUnit, Mockito and integration tests before release.
 - Gather requirements directly with client stakeholders and turn them into sprint-ready work.
 - Mentor junior developers and lead the team on sprint goals in Scrum.
- Tech stack:** Java 21, Spring Boot, Spring Data JPA, Hibernate, Angular, React, Kafka, Redis, Keycloak, Docker, Kubernetes, GitLab, CI/CD, JUnit, Mockito, Mendix.
- Aug. 2022 – Aug. 2024 **Software Engineer**, *Inetum Morocco*, Rabat
French IT services group.
- Built Spring Boot microservices and REST APIs for production applications, in Scrum.
 - Delivered Angular interfaces with cross-functional teams; wrote unit and integration tests (JUnit, Mockito).
 - Containerized services with Docker; CI on Jenkins and GitLab. Used Mendix when rapid delivery was the constraint.
- Tech stack:** Java, Spring Boot, Angular, Docker, Jenkins, GitLab, Jira, Scrum, JUnit, Mockito, Mendix.
- May – Aug. 2022 **Data Science Intern (Final-year internship)**, *Beneva*, Québec, Canada
- Segmented customers with clustering and built dashboards; estimated customer lifetime value and plotted survival curves.
 - Proposed analyses to support company decision-making (Python, scikit-learn, PyTorch, SQL, Azure).
- Tech stack:** Python, scikit-learn, PyTorch, SQL, Azure, GitLab, Scrum.

Selected projects

ChantiePro	16 Spring Boot 3.3 services on Java 21, 6 shared libraries, 31 Flyway migrations, Kafka, Angular 18. https://github.com/ZakariaeJaafari/chantiepro
data-analytics	NYC TLC dimensional models with dbt and DuckDB (109,047,518 yellow trips at source, star schema, dbt tests and docs). https://github.com/ZakariaeJaafari/data-analytics
DataPlatforme-Bruin	Bruin ELT on DuckDB and MotherDuck: PyArrow batch ingestion, deduplication, quality checks, 6,405,008 rows in cloud production. https://github.com/ZakariaeJaafari/DataPlatforme-Bruin

Education

Aug. 2021 – May 2022	M.Sc. in Computer Science — Artificial Intelligence , <i>Université Laval</i> , Québec, Canada, Exchange programme
Sept. 2019 – May 2022	Engineering Degree in Data and Software Engineering , <i>INSEA</i> , Rabat

Certifications

Jan. 2024	Rapid Developer Certificate — Mendix, ID 69110
-----------	---

Technical skills

Software	Java 21, Spring Boot, Spring Data JPA, Hibernate, Spring Security, REST APIs, microservices, Angular, React, TypeScript, SQL, PostgreSQL, Redis, Kafka, Flyway, Keycloak, Docker, Kubernetes, GitLab, Jenkins, CI/CD, JUnit, Mockito, Mendix
Data engineering	Python, SQL, dbt, DuckDB, MotherDuck, Bruin, Kestra, Parquet, pandas (NYC TLC projects). Zoomcamp: Terraform, GCP, BigQuery, Spark
Data science	scikit-learn, PyTorch

Languages

Arabic	Native
French	Fluent
English	Fluent
